

The Test Delivery System (TDS) has two components; the Test Administrator (TA) Interface and the Student Interface. Test administrators use the TA Interface to create and manage test sessions. Students use the Student Interface in the secure browser to access the testing site. Please refer to the *Test Administrator User Guide* on the portal for more information about TDS. This quick guide focuses on operational/live testing. For more information about administering practice tests or sample test items, please refer to the *Practice Test and Sample Test Materials User Guide*.

- Test administrators should create a test session immediately prior to testing.
- Test administrators are automatically logged out after 90 minutes of TA and student inactivity in a test session. This will close the test session and pause all in-progress tests.
- Test administrators will not be logged out due to inactivity as long as students are actively testing. Other network connectivity issues may cause the TA's session to close.

## Approving Students for Testing

1. After students select their tests, click the **Approvals** tab to view the list of students awaiting approval.

2. To review a student's test settings, click the test settings icon [  ] in that student's row. If there is an issue with the student's test settings, contact your school assessment coordinator.

## Monitoring Students

During testing TAs can monitor each student's progress by clicking the **Operational** Session ID tab.

Tests Requiring TA Intervention

- The Student Information column displays student name and username.
- The Test column displays the test name and which session (if applicable) the student is in.
- The Progress column displays the student's progress and status in the test. The fraction represents the number of items answered out of the total items in the test. The status shows either Approved, Started, Review, Completed, Submitted, or Pause. The "i" icon [  ] will appear when students need TA intervention. This icon will show why the student is no longer in the test.

# STUDENT INTERFACE

Sign In, Verify Student Information, Select Test, Verify Test Information, and Complete Test

## Signing In

1. On each student computer or device, you will open the secure browser to the **Sign In** screen.
2. You will instruct students to enter their first names and usernames, which are found on their test tickets, and the Session ID, which you have displayed where all students can see it.

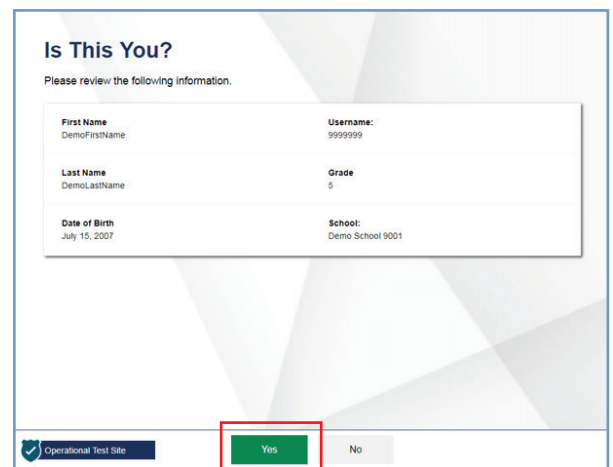

The 'Please Sign In' screen features three input fields: 'First Name' with a person icon, 'Username' with a 'TDS' icon, and 'Session ID' with a key icon and a dropdown menu showing 'FL'. A green 'Sign In' button is located at the bottom.

### Common Login Errors:

- **The student's username or first name is entered incorrectly.** This indicates that the username and/or first name do not match the information in TIDE. Verify that students have the right test ticket and are entering the information correctly, or use the Student Lookup feature in the TA Interface to confirm the student's information.
- **The Session ID is not available.** This indicates that the Session ID entered is not an available test session. Verify that the Session ID was entered correctly or that the session did not close due to inactivity.

## Verifying Student Information

1. After students log in, the **Is This You?** screen displays. Students will verify that the information on this screen is correct.
2. Students must click **Yes** to continue or click **No** if the information is incorrect.

The 'Is This You?' screen displays a table of student information for verification. At the bottom, there are three buttons: 'Operational Test Site' (disabled), 'Yes' (highlighted with a red box), and 'No'.
