Introducing Blackboard Web Community Manager Quick Start Guide

NOTE: This guide is designed to be a cursory introduction to the WCM system so that you can quickly start editing pre-existing pages in your site. Many more features and instructions are included in the Website Training Resources site at https://www.escambiaschools.org/Page/2981

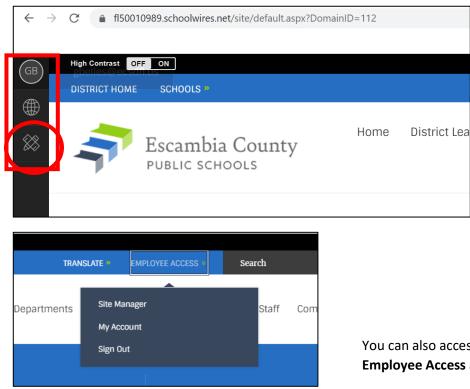

Technical support can be accessed by submitting a ticket at https://ithelp.escambia.k12.fl.us.

Logging in to Web Community Manager

You can log in to **Web Community Manager** (WCM) from any ECPS webpage, but it is fastest to navigate to the page or channel you want to edit before logging in. The address for the main page of the district website is <u>https://www.escambiaschools.org/</u>.

Accessing Site Manager

After signing in, the previous page will refresh. You will then see a black sidebar on the left side of the page. Click on the icon of a ruler and pencil to open **Site Manger**. It will open in a new window.

You can also access **Site Manager** by clicking on **Employee Access** again.

Using Site Manager

On the left of the screen you will see the **section**(s) you have been authorized to maintain and manage. (In WCM a district department is called a section.) By default, the center column shows the **Summary** tab and the **Current Pages** feature. To the right are features containing **Common Tools – Photo Gallery, Forms & Surveys,** and **Files & Folders**, as well as the **Pending Comments** feature and the **Total Visits** graph (not shown in the screenshot below).

There are two ways to enter Page Edit Mode:

If you are already in Site Manager, simply click on the name of the page you would like to edit.

When you sign into WCM from a webpage the browser window will refresh and you will see the **Edit Page** button. Clicking it will open to a page similar to the one below.

When the **Page View** panel slides open you will see your page broken down into modules (called **apps** in WCM). The **apps** are arranged in a **layout**. If you hover over an app with your mouse the gray hint box will change to the view below.

To begin adding, editing, or deleting content from an app, click the green pencil icon in the middle of the app frame.

Some apps, such as **Content Accordion** and **File Library**, have two ways of editing the app – clicking the green plus sign icon will open the editing area for adding new individual records, files, etc. Clicking the gray pencil icon will allow you to add, sort, delete, and perform other actions on the records or files you have created.

You edit the content in much the same way you would in Word or Google Docs.

Clicking the **Insert Link** icon will activate the tool for creating and managing links to files, internal and external web addresses, and email addresses.

	t Link to a site, choose the site. To map to a channel o	r section, choose the site then the channel or section. To map to a page, choose a site, a
	Your Site Link to an area of your site.	Choose a Site

~@	Clipart Select an image from the Web	O Custom Size (User defined)	
	Select an image from the web Community Manager Clipart Library.	No Resizing (Original size)	
		Continue Ca	incel

Clicking the **Insert File** icon will activate the tool for linking to files from many sources and uploading them to the site if necessary.

			\times
	t File Link file location then choose your file and enter link text	. If you want, you can set the target for your file link.	
	Upload File Upload a file from your computer or network.	Browse	
\bigcirc	Cloud File Upload a file from your cloud storage provider.		
	Existing File Select a file that has already been uploaded.		
\$	Shared File Select a file from the shared library.		
Con	tinue Cancel		

When you have finished editing the app Click the black **Save** button at the top of the app editing window. A purple success tab will appear at the bottom of the page.

IMPORTANT NOTE: Your site is constantly live – as soon as you click Save the changes will be reflected on the website immediately.

To exit the editing pane click the purple X-mark next to the **Save** button. The page will refresh to the view below, where you can choose other apps to edit.

These and many more features and topics will be discussed at in-person trainings as well as on the **Website Training Resources** site (<u>https://www.escambiaschools.org/Page/2981</u>).

You can also access the site by navigating to the Information Technology Department website, then choosing **Website Training** from the menu on the right side of the IT homepage.
