

ESCAMBIA COUNTY SCHOOL DISTRICT

SCHOOL SAFETY & SECURITY

What to Expect In the Event of a School Elevated Security Notification:

Students

- Stay calm and alert.
- Follow the directions given to you by teachers and staff.
- Refrain from speculating on the event and broadcasting via cell phone or social media. Misinformation can aggravate the situation.
- In the event of an evacuation, remain calm and follow the directions of school staff and law enforcement.
- You will be reunited with your parents as soon as practical.

Parents

- Teachers and staff have been trained to handle emergencies that affect your student's school.
- There will be no student checkout during an event.
- **DO NOT attempt to access your student at the school during an event.**
- Information provided by staff and students in the school during any event is generally incomplete and sometimes inaccurate. Refrain as much as possible from reacting to any information not originating from local authorities.
- Remember, in most cases, school security is elevated as a precautionary measure because of an external threat or because of law enforcement activity in the vicinity of your student's school not because of activity on campus.
- Normal school activities will be impacted by security-related events.
- Status updates will be provided by the District.

Community

- Be alert and report suspicious activity to local law enforcement.
- Consider your ability to assist with recovery efforts if community support is requested.
