Steps to Preventing Altercations

1. Effectively communicate by being slow to anger with peers.
2. Practice empathy and compassion.
3. Walk away from a verbal confrontation. Do not go back and forth.
4. Take a break from social media. DO NOT post indirect messages.
5. Report concerns to an adult if conflict is one-sided. Complete a bullying report.
6. Separate yourself from instigating PEERS.
7. Don't let a six to ten second altercation directly affect the next two years of your life.
